NEWSLETTER

1st Quarter 2008

5 moves:

1. Announcing WF100, a plug and play Wireless Fence for cost effective protection of valuable items

Free2move Asia & Pacific announces the availability of a cost effective and easy to install plug and play Wireless Fence package. One single package can secure up to 100 valuable items within an up to half an acre wide zone.

When the wireless fence is enabled, the valuable items can be moved freely within the secured zone. But an alarm will trigger if an asset has been taken out from the zone or if any of the tags is being tampered with.

The kit is suitable for securing lab-equipment, golf cars, computer equipment, PoS equipment, classroom equipment, clinical equipment, exhibition equipment, AV equipment, studio equipment and much more.

The package includes:

- Wireless fence application software for Windows XP or Vista.
- 100 pieces of dual purpose asset/card tags
- 1 tracking access point with 2 antennas
- RS232 and USB cables for connection to PC
- USB alarm
- Preinstalled PC (Option)

Free2move product families included: **F2M07, F2M08**

2. Richardson Electronics (Reil) markets Free2move's products in ANZ and Asia

Free2move's distribution in Australia and New Zealand is strengthened by the welcoming of Richardson Electronics as Free2move distributor and engineered solutions provider. With an annual turnover in excess of EUR 500 million, Richardson Electronics ranks in the top 20 global component distributors, serving the RF and wireless communications, industrial, power conversion and display systems markets. A strong complement to Free2move's custom product design services, Richardson delivers

engineered solutions for customer needs through systems integration, prototype design and manufacture, testing and logistics.

Free2move's offering via Richardson includes all product families arranged in 3 main groups:

- SMD modules for wireless communication
- Kits and OEM boards for development, evaluation and prototyping
- Plug and play wireless systems for data communication, identification and networked sensors

Enquires can be made by filling out a simple online form at:

www.rell.com/free2move/contactus.asp

Richardson has offices throughout Australia, New Zealand and Asia & Pacific. See here for full list:

Free2move product families included: **All products**

3. Free2move Asia & Pacific strengthens custom design services

Free2move Asia & Pacific provides innovative wireless and electronic custom design services. Technology areas include wireless short range communication such as Bluetooth, WLAN and RFID, near field communication (NFC) and asset security technologies. During the recent 6 months the Free2move has undertaken custom design contracts in the areas of

- Asset security
- Wireless patient monitoring
- Wireless media dissemination

There are further announcements to be expected in Q2 – 2008.

Free2move product families included: **F2M03, F2M05, F2M07, F2M08**

4. Shipment of wireless remote metering and diagnosis device to US-based Comverge

Free2move Asia & Pacific has finalised shipments of a wireless remote metering and diagnosis custom design for US-based energy services corporation Comverge (www.comverge.com). The Bluetooth™ and Infrared device is used to convert legacy Infrared based wireless links to Bluetooth increasing robustness of the installed base, enabling metering readout and diagnosis using a handheld computer. This initial order is considered pre-series for operational deployment and evaluation.

The device has been manufactured and assembled in Malaysia.

Free2move product families included: **F2M03**

5. Free2move included in WesTech's line card for 2008

WesTech (www.westech.com.sg) is including Free2move for their 2008 industrial electronics line card. WesTech has sales offices in Hong Kong, India (Delhi, Pune, Bangalore, Hyderabad), Malaysia (Penang, Kuala Lumpur, Johor), China (ShenZhen, Suzhou, Shanghai), Taiwan and Thailand.

A public listed company in Singapore, Westech specialises in logistics, maintenance, field support and solutions in the areas of display systems, power and industrial systems.

Free2move product families included: **All products**
