

# Gemia™

## Gemia™ ISO 18000-6c RFID reader with Bluetooth®

The Gemia™ is a lightweight EPC Gen 2 compatible RFID reader with Bluetooth® interface and built-in battery support.

Gemia™ can be connected to any host supporting Bluetooth™ serial port profile, such as laptops and handheld computers.

An easy to use application programming interface allows for fast application development.

RFID enable your laptop, POS or handheld without using cables

## Using Gemia™ with industrial handhelds

Via U-shaped gripper or screwed adapter (both available accessories), the Gemia™ can be fixed onto popular industrial handhelds. No cables are needed since data communication is via Bluetooth®.

Part number: FS901-AB0A

ISO 18000-6c
